

## FULL DAY EXCURSION SWEEPING ACROSS LOS GLACIARES NATIONAL PARK

For those seeking exclusive experiences, this full day excursion to **Los Glaciares National Park** encompasses the best of the park from the steppes to the **Perito Moreno Glacier**. Of the 2000 people who visit the National Park every day, only 15 will be able to enjoy this exclusive experience.

The circuit connects the **estancias of the steppe, Roca Lake**, part of **Argentino Lake** and the **Perito Moreno Glacier**. Absorb the natural beauties, history and culture of the area in one package.

Accompanied by a **bilingual guide**, drive along the old Estancia Route to access the National Park through the Roca Lake entrance to where the centuries old Estancia Nibepo Aike is located.

This **working sheep and cattle ranch** overlooks the southern arm of Lago Argentino in a bucolic valley backed by snow-capped mountain peaks. Here enjoy a manual sheep shearing demonstration, including classification and wool storage. A tour through the historic centre recalls anecdotes and stories of early settlers.

Lunch consists of grilled Patagonian lamb, beef steaks and sausage, accompanied by a variety of fresh seasonal salads from the kitchen garden, followed by a dessert of pancakes with home-made milk caramel, coffee or tea. Alcoholic and non-alcoholic beverages are included.

After lunch the **“Hautal” boat** (capacity 16) leaves from the Pioneers Dock to navigate the Southern and Rico arms of the lake, where one can enjoy views of the **Adriana and Moreno mountain ranges**, before arriving at Las Monedas beach. From there, a pleasant stroll through the forest leads to a **panoramic view of the southern face of the imposing Perito Moreno Glacier**.

Having enjoyed the view from this lookout, board the boat once again to navigate along the front of the southern face of Perito Moreno glacier, seeing the ice close up, before disembarking at Bajo de La Sombra, where a vehicle will be waiting to transfer guests to the start of the traditional walkway circuit. Estimated arrival at the walkways is 4 p.m., an ideal time for this excursion, as the regular crowds have already left, so guests can enjoy the sights in comfort.

Once everyone has had their fill of the view, the transfer will be waiting to return to El Calafate.
